## GENERAL PROVISION OF HEALTH SERVICES IN THE AREA

### Tuberculosis

Hawley Sanatorium, situated in the Borough of Barnstaple, has 28 beds.

### Maternity Cases

The Devon County Council is continuing to act as they did in 1947, as agents for the Regional Hospital Board, until the Board has completed its own plans for the treatment of Maternity cases.

At the North Devon Infirmary there is a ward of 12 beds with a fully qualified staff available for cases of doubt or difficulty.

At Bicclescombe Maternity Home, Ilfracombe, there are 10 Maternity and 4 Ante-natal beds.

There are 4 beds at Braunton Nursing Home.

A General Practitioner Maternity Unit of 13 beds was opened at Highfield, Victoria Road, Barnstaple, on 1st March, 1952.

### Isolation of Infectious Diseases

There is an Infectious Diseases Isolation Hospital at Bideford, which serves Barnstaple as well as other Local Authorities in North Devon. A separate block for early Tuberculosis cases from North Devon is also maintained at this hospital.

### Small Pox

The Small Pox Hospital to which any cases of Small Pox will be sent is Upton Pine Hospital, near Exeter. Special Ambulance Transport can be obtained by contacting the Isolation Hospital, Whipton, Exeter. Telephone 67158.

## General

The North Devon Infirmary, situated in Barnstaple, serves the Area, and provides modern Medical and Surgical treatment for the residents of the district.

Wards at the Alexandra Hospital are set aside as an annexe to the wards of the North Devon Infirmary, and post-operative and recovery patients are now transferred there as soon as practicable.

There are 123 beds for the chronic sick at the Alexandra Hospital.

At Braunton Nursing Home there are 4 beds for sick persons.

## Laboratory Facilities

The Main Laboratory is situated at 7, Dix's Field, Exeter, and Dr. Moore is the Director. It is completely installed with the necessary equipment for bacteriological examinations of all kinds. Its diagnostic and consultative services are available for all patients. Bacteriological examinations of drinking water and milk are also carried out.

There is also a Pathological Laboratory at the former Barnstaple and North Devon Dispensary building with a full-time Pathologist and Technical Staff to meet the needs of the whole North Devon Area. The Blood Bank has been transferred to this Laboratory.

## Clinics and Treatment Centres

### V.D. Clinic

This is held at the North Devon Infirmary Annexe.

Sessions :		Females	Males
Monday	.. ..	4.0 p.m.	5.15 p.m.
Thursday	.. ..	4.30 p.m.	5.45 p.m.

### Chest Clinic

The Chest Clinic is held at the North Devon Infirmary.

Sessions :

Tuesdays	9 a.m. to 1 p.m.	}	Clinic and X-Ray Examinations
	2 p.m. to 4 p.m.		
Thursdays	9 a.m. to 1 p.m.	}	A.P. Refills
	2 p.m. to 4.30 p.m.		
Fridays	9 a.m. to 1 p.m.	}	
	2 p.m. to 4 p.m.		

### Ambulance Service

Under section 27 of the National Health Service Act, 1946, the Local Health Authority (i.e. the Devon County Council) is responsible for the provision of an Ambulance Service, and the Devon Health Committee have arranged for this to be provided through the agency of the St. John Ambulance Association. The Brigade serves Barnstaple Borough and the District around, and the Headquarters are in Commercial Road, Barnstaple. The staff consists of 3 paid members (full time), 20 men volunteers, and 14 volunteer nurses. The Hospital car service, also under the

Devon County Council, is available upon application to the Hospital, and the Ambulance Service is empowered to hire cars in urgent cases when the Ambulance is not necessary.

### **Immunization against Diphtheria**

During the year 305 children received primary injections ; 477 children received reinforcing injections.

### **Vaccination**

During the year the following vaccinations were carried out :

Under 1 year	1-4 years	5-14 years	15 years and over
103	68	10	59

### **Professional Nursing in the Homes**

There are 11 District Nurses in the area, all of whom act as Midwives.

### **Home Helps Scheme**

This scheme was started in March 1949 and is run by the W.V.S. for the Devon County Council. It covers Barnstaple Borough and the Rural Areas wherever transport is available, and the scheme is directed by Mrs. Hughes. There are now 46 Home Helps and 288 cases were dealt with in 1953. Any case recommended by a Doctor, Health Visitor or District Nurse is entitled to a Home Help. The Home Helps do any work in the house normally done by the housewife. Twenty-six aged people living by themselves are now being looked after by Home Helps who otherwise would have to go to hospital. During the year 1953 twenty maternity cases have been rendered assistance in their homes by the Home Helps. Six blind people also receive assistance from the Service. I am glad to note that the service is steadily growing and is much appreciated by all concerned.

# ANNUAL REPORT OF THE CHIEF SANITARY INSPECTOR, ENGINEER, AND BUILDING SURVEYOR

---

---

The Red House,  
Castle Street,  
Barnstaple.

June, 1954.

To the Chairman and Members of  
The Barnstaple Rural District Council.

Mrs. Trebble and Gentlemen,

I beg to present my eighth Annual Report of Work carried out during 1953.

## GENERAL

The area of your district is 129,346 acres with an estimated population of 23,360. The population of your District is increasing steadily, the increase for the past year being estimated by the Registrar General as 330.

There has been no appreciable change in the basic industries of the area during the year except that the Power Station at Yelland is now in operation. It awaits to be seen whether or not this source of power will be an encouragement to the establishment of further industries in the District.

In addition to the steady increase in resident population it is apparent that the number of summer visitors is also increasing. Whilst these are necessary for the economic well-being of the area, they bring their problems with them. Numbered amongst these are Traffic and Car Parking problems, Sanitation generally and the need for additional Public Conveniences.

Furthermore, caravaning is increasing in popularity every year and whilst several new sites have been established these are insufficient to meet the demand during the peak periods of July and August.

It is unfortunate that the Season in North Devon cannot be extended. There is ample accommodation both in Hotels, Boarding Houses and Caravan Sites for the total influx of visitors if only the Season could be extended. It is, therefore, necessary in many cases to make provision for the maximum that can be expected during the peak period. This involves considerable expenditure in labour, materials and money, which must of necessity be of little use for the remainder of the year.

The authorised camping and caravan sites have on the whole been well conducted during the year under review and owners have shown their willingness to co-operate, but additional sanitary accommodation will be required on some sites as soon as public sewers are available.

The question of sewerage and sewage disposal in many villages is becoming increasingly serious. Piped water supplies are being provided faster than sewage disposal systems and naturally householders are anxious to instal modern sanitation in the form of baths, wash basins and water closets and the disposal of the consequent increased flow of sewage is a serious problem. Whilst every endeavour is being made to deal with the problem and you are already committed to a total expenditure in the region of half a million pounds, it will be many years before some of the villages have been adequately dealt with unless the rate of progress in the execution of the works can be very considerably increased.

Schemes have been completed as follows :—

**Mortehoe (Woolacombe)** Provision of pipeline and sea outfall and sewer extensions.

**Combe Martin** .. Provision of an Ejector Station at Newberry Beach.

<b>Fremington</b>	..	..	Laying of sewers from Bickington to Fremington Pill. Extension of existing outfall to Fremington Pill.
<b>West Down</b>	..	..	Extension of sewer to Barton Lane.
<b>General</b>	..	..	Minor extensions to Housing Sites.

The following schemes are in progress :—

<b>Croyde</b>	..	..	The provision of a Sewerage System, Pumping Station and Sea Outfall.
---------------	----	----	--

The following schemes have been approved :—

<b>Taw Sewerage..</b>	..	South Bank Contract No. 3 at a cost of	£121,956
-----------------------	----	--	----------

Schemes approved by the Council :—

			<i>Estimated Cost</i>
Instow Emergency Works	..	..	£2,998
Sewers at Crosslands, Fremington	..	..	£7,000
Braunton and Saunton and area	..	..	£132,500
Bishops Tawton..	..	..	£30,500

Furthermore schemes are contemplated as follows :—

Completion of the South Bank, Taw Sewerage			
Scheme	..	..	£100,000
Instow Main Scheme	..	..	£28,000
Provision of Disposal Works at West Down			£7,117
Prixford	..	..	£2,000
Landkey and Swimbridge, including Swimbridge Tannery	..	..	Unknown
Parracombe	..	..	Unknown

The peaceful quietude of our countryside is shattered daily by the low-flying modern jet aircraft. One wonders if one can be justly proud of the position we find ourselves in when we gaze over the acres now occupied by the R.A.F. and think of the time when they were food producing. Can we also spare a thought for the fact that the cost of only two or three of these craft if diverted to the purpose of providing modern sanitation would solve our problem in this sphere

## PREVENTION OF DAMAGE BY PESTS ACT, 1949

During the year 1,372 visits and inspections have been made to private dwelling houses, business premises and agricultural properties.

Of this total 597 were found to be infested with rats or mice, and advice was given where necessary.

54 complaints were received from householders, and in 43 of these cases treatment was carried out by the Local Authority.

4 Notices were served requesting disinfection.

The 16 sewer systems in the area were tested and were found to be practically clear of infestation with one exception, and in this case the necessary treatment was carried out.

Treatments were made at the 6 Refuse Tips, 562 rat bodies being found after the various disinfections.

### Disposal of Carcasses deposited on Foreshore.

Animal carcasses are still being deposited around the foreshore from time to time. Arrangements have to be made for disposal, usually by burial in lime on the foreshore.

### Total Notices (Served as under).

## **Water**

19 Water Samples were taken, 9 of which proved satisfactory. Advice was given in all cases of unsatisfactory results in an endeavour to effect an improvement.

## **Farm Water Supplies**

Several Farm Water Supplies were investigated at the request of the Agricultural Executive Committee during the year.

## **Coast Protection**

Regular inspections are made of the banks and defences generally around your coast. Two cases requiring attention have been notified to the responsible owners and in each case the necessary work has been carried out. Notice of damage to a sea wall by rabbits has also been passed to the Ministry of Agriculture and Fisheries Rodent Officer.

## HOUSING APPLICATIONS

The following Table gives the number of applicants on each Parish Housing List as at 31st December, 1953.

As a number of applicants are recorded on more than one Parish List, it is difficult to assess the true position. I would consider that approximately 75 per cent. of the total actually are in need of accommodation.

The position is made more difficult by the fact that a number of applicants, in addition to registering in more than one parish also register with several Local Authorities.
